ON-CAMPUS PARKING

Cost: All lots on campus cost $6.00 on Saturday before noon EXCEPT for the Central Plaza Parking Garage, which is $10.00. Several of the parking lots are self-serve, allowing you to skip the gatehouse and pay on the spot. Some have pay machines where you enter your stall or license plate number.

Padelford Parking Garage is the closest lot. Padelford Garage can be entered from 25th and Ponderay.

The closest handicapped parking is available in lots C15 and C17. Handicapped parking is available in other lots throughout the campus as well.

We recommend that you visit the University of Washington’s website and click on Maps to locate Mary Gates Hall and the Robinson Center. The map can be located here: www.washington.edu/maps/

Complete information on parking services and the UW’s campus parking rules can be found on the UW’s Transportation Services web page.

STREET PARKING

COST: $1 - $1.50 per hour
If you prefer to shop for street parking, please be aware that the university district parking is not free on Saturdays. For more public parking information, we recommend this website: http://www.parkopedia.com/

PUBLIC TRANSPORTATION

COST: $1.50 for youth, $2.50 - $3.50 for adults
Google Maps is the best resource for looking up bus routes that take you to campus. You can type in Mary Gates Hall and Google Maps will find the correct building. You can also visit Metro Trip Planner or Sound Transit Trip Planner for bus and light rail schedules. Schedules DO vary on weekends, so make sure you are looking at search results for Saturday rather than a weekday.

UW SPORTS AND OTHER UNIVERSITY DISTRICT EVENTS

The Windermere Cup will take place on May 7th. This will impact parking at and around the University. The Montlake Bridge will be closed.

The annual U District Street Fair will take place on May 21st and 22nd. This will affect traffic and parking in the neighborhood.

BRIDGE CLOSURE AND TRAFFIC

The WA Department of Transportation posts traffic reports online: www.wsdot.com/travel/Real-time/Map/
We strongly recommend checking traffic reports early Saturday morning, as the commute to campus can be rough. The Robinson Center will not always be able to notify you of traffic revisions in advance.
